

ProQuest Research Library

**For research resources that support diverse disciplines,
start here.**

From business and political science to literature and psychology, ProQuest Research Library provides one-stop access to a wide range of popular subjects. This database includes more than 3,850 titles—over 2,600 in full text—from 1971 forward. It features a highly respected, diversified mix of scholarly journals, trade publications, magazines, and newspapers. Its volume and scope makes this one of the broadest, most inclusive databases ProQuest offers.

ProQuest Research Library consists of a core list of periodicals, plus 15 supplemental subject-specific modules, including:

- | | | | | |
|--------------------|------------|------------------|--------------------|-----------------|
| ➤ Arts | ➤ Sciences | ➤ Military | ➤ Humanities | ➤ Education |
| ➤ General Interest | ➤ Business | ➤ Social Science | ➤ Multicultural | ➤ International |
| ➤ Law | ➤ Health | ➤ Children | ➤ Women's Interest | ➤ Psychology |

Users can search the core periodicals and subject modules seamlessly and simultaneously for broader results, or individually for more focused results. ProQuest Research Library extensively covers 150 core subject areas, making it an invaluable database for students and professional researchers alike.

ProQuest's enhanced searching capabilities make it easy for both novice and expert searchers to find the information they want:

- Powered by ProQuest Smart Search, ProQuest Research Library displays suggested topics to aid in directing or narrowing a search for quick, optimal results.
- Email alerts notify users whenever content of interest to them becomes available.
- 30 searchable fields ensure powerful search capabilities.
- The "My Research" feature records selected articles, previous searches, and publications visited, in a single location. Users can email documents, create bibliographies, and more.
- Search fields include subject names, geographic names, personal names, and companies.
- The "Find More Documents Like This" feature automatically displays related information on a topic.
- Citations can be formatted automatically in a choice of styles: AMA; APA; Chicago/Turabian/Harvard: Author-Date; Chicago/Turabian: Humanities; MLA; and Vancouver.
